

PE ARIAN R. REY

FRONT-END DEVELOPER

ABOUT ME

I am a front-end developer who also enjoys prototyping and creating wireframes at varying levels of fidelity. I have experience working with teams and I like working on projects where I get to expand my skills and explore my creativity.

EXPERIENCE

Bitcoin Whales

February 2023 - Present

- Created the front-end of an Ordinals website in Web 3.
- Currently responsible for integrating Bitcoin Lightning Network Browser Wallet to the site and ensuring the validity of the transactions.

MarketHeist

July 2022

- Commissioned as a web developer to code and design a landing page for an online trading course.

E-Lingkod: an Impact 2021 and Incubate 2022 entry

December 2021 - March 2022

- Responsible for the UI/UX and marketing of the startup team.
- Coded the front-end of the E-governance web application.

UP School of Statistics Data Aggregation System

June 2021

- Designed a high-fidelity prototype based on the client's demands.
- Contributed to designing the system that allows faculty and staff to access and store data effectively.
- Built UI components in React.js.

ORGANIZATIONS

UP Center for Student Innovations

Membership and Internals Committee · Feb 2023 - Present

- Co-Head for the CSI Application Process for 2nd Sem A.Y. 2022-2023

PERSONAL PROJECTS

Touch Typer

A typing game I built using React.js and Game of Throne Quotes API.

Investabot

A discord bot that I built using Discord.py, Phisix API, and Binance API.
